

Novartis Australia and New Zealand

Novartis is improving the lives of more than 2.8 million patients across Australia and New Zealand through our medicines.

By partnering with the healthcare system we are working for patients to address their needs, and we are committed to accelerating patient access to life saving treatments and associated healthcare.

We are reimagining medicine by using innovative science and technology to address challenging healthcare issues and our rich research pipeline has 200+ projects in development. We are transforming how clinical trials are run to increase patients' access to our industry-leading clinical trials footprint in Australia.

We continue to work on improving our environment for diversity, equity and inclusion and being a family friendly employer. Every day our inspired, curious, unbossed, and integrity-driven culture unites our people and encourages leadership at every level.
